INT. PATENT CLASSIF.:

MAIN: A61K007-00
 SECONDARY: A61K009-08; C07C057-03

BASIC ABSTRACT:

BE 887205 A UPAB: 19930915

New solns. of essential fatty acids (I) comprise (I) and jojoba oil (II), where (I) is esp. vitamin F (i.e. a mixt. of linoleic acid with minor amts. of linolenic and other fatty acids).

The solns. pref. comprise 0.5-20 wt.% (I) and 80-99.5 wt.% (II). Claimed cosmetic compsns. pref. contain 5-99% of the solns., esp. in the form of w/o or o/w emulsions contg. 5-60wt.% oil phase. The oil phase can also contain other oils and/or waxes. The compsns. can also contain other ingredients, esp. sun-screen agents, preservatives, perfumes, fillers and/or dyes.

The vitamin F solns. can be used in cosmetic compsns. (II) imparts greatly improved oxidative stability so that the solns. can be used without added antioxidants.
